

Mushroom Roof Cowl

RMC4M, RMC5M, RMC6M & RMC8M

The RMC range offers the highest protection from rain, back drafts and rodents with a unique and stylish design. The Cowl slips over the roof pipe to prevent rain water running down the inside of the pipe.

The Cowl is made of Aluminum with the cover's thickness being 1mm and the neck being 0.6mm. The mesh is made of 304 stainless steel and **complies with BAL40 (Bushfire Attack Level).**

The diameter of the mesh wire is 0.2mm and has 16 holes per square centimetre

Key Benefits

- Efficient air/exhaust expulsion
- Suitable for roof ventilation only
- Complies to BAL40 (Bushfire Attack Level 40) when used with supplied cinder mesh surrounding
